

Unit on gravity getting you **D O W N**? Talk to a physicist!

**Water cycle** gettin' ya soggy? We'll get you a hydrologist!

Have a **rock unit** that's as flat as geologic mesa formation? We know a geologist!

### **Free\* Resources for Teachers!**

\*Free to the first 25 registered

At EcoMyths Alliance, we believe that engaging students of today in the **STEM** fields will lead to aware and informed leaders of tomorrow.

EcoMyths Alliance is now offering unique and innovative educational resources:

- Access to our Expert Helpline Email us with any science questions you or your students may have. We will ask an expert and get you an answer in a few days time. Industry professionals and scientists are at your fingertips!
- Virtual field trips! Don't worry about the budget – EcoMyths has access to amazing resources and institutions in the Chicago region. Our tours and interviews with scientists at work can be found on our YouTube channel and played anytime so it fits with *your* schedule.

*After meeting with Ms. Kosson, she contacted many different types of engineers to see if they would fit into my Jr. High program. I've now been in contact with several of these engineers and they'll be talking to my students via video chat. Ms. Kosson saved me a lot of time and I'll definitely be contacting her again with more of my classroom needs. Thank you!!*

*- Dan W., Jr. High STEM Engineering Teacher - Wood Dale, Illinois*

Contact us and learn how we can help **SPICE** up your science!

Beth Kosson, Education Manager
